INS IN FIRE ZONE

City of Americans Believed in Earthquake District

Western California are known to be in the line of earthquake and fire in Japan, and no one received.

is in charge of Capt. James Barnson and the latter in charge of Capt. J. H. Gilbert. Both vessels are manned by Los Angeles Harbor crew and David Buchanan, a former member of The Times staff, is aboard the Yuba Linda. The General Petroleum Corporation has had no advice of either vessel since the earthquake but officials expressed their confidence that both were safe. The Yuba Linda sailed from this port August 2 and arrived August 17 and the Lebes left August 1 and arrived Friday. The passenger list of the Pacific Mail liner President Lincoln, which sailed from San Francisco for the Orient on August 14, reaching Yokohama on August 29, includes a number of passengers from Los Angeles. Among them are Miss Mollie Paul, Miss Helen Smith, Mr. H. A. Yagie, Donald Walker, C. C. Ballard and Charles Hollman.

According to Clyde Hutchison, local passenger agent of the steamship company, several of these persons were bound for Yokohama. Mr. Hutchison says that inasmuch as an outbound vessel leaves a day on a trip to the Orient, the President Lincoln must have been in the Yokohama harbor on August 31, the day before the catastrophe, which was the date of her departure for Manila.

"I am confident that the Lincoln got away in safety prior to the earthquake," he said. Mr. Hutchison said that inasmuch as an outbound vessel leaves a day on a trip to the Orient, the President Lincoln must have been in the Yokohama harbor on August 31, the day before the catastrophe, which was the date of her departure for Manila.

Much interest is displayed in the local Japanese colony in the disaster. Many of the Japanese are from Tokio and Yokohama and have relatives in the danger zone.

ED TOKIO FIRE

at Critical Time and 200,000 cent up in Flames

ASSOCIATED PRESS] A message from the Reuters correspondent early morning a strong wind has been blowing and hot. At noon an appalling fire more than ten other shocks.

NEW TREMORS ARE RECORDED

(Continued from First Page)

described by observatory officials as "one of the settling shocks" consequent to the devastating Japanese earthquake was recorded on the seismograph at the University of Santa Clara, near here, last night. The shock commenced at 8:58:24 o'clock and lasted for less than an hour. Observers said the center of the disturbance was the same as that of the earlier earthquake.

GONZAGA GETS TREMORS

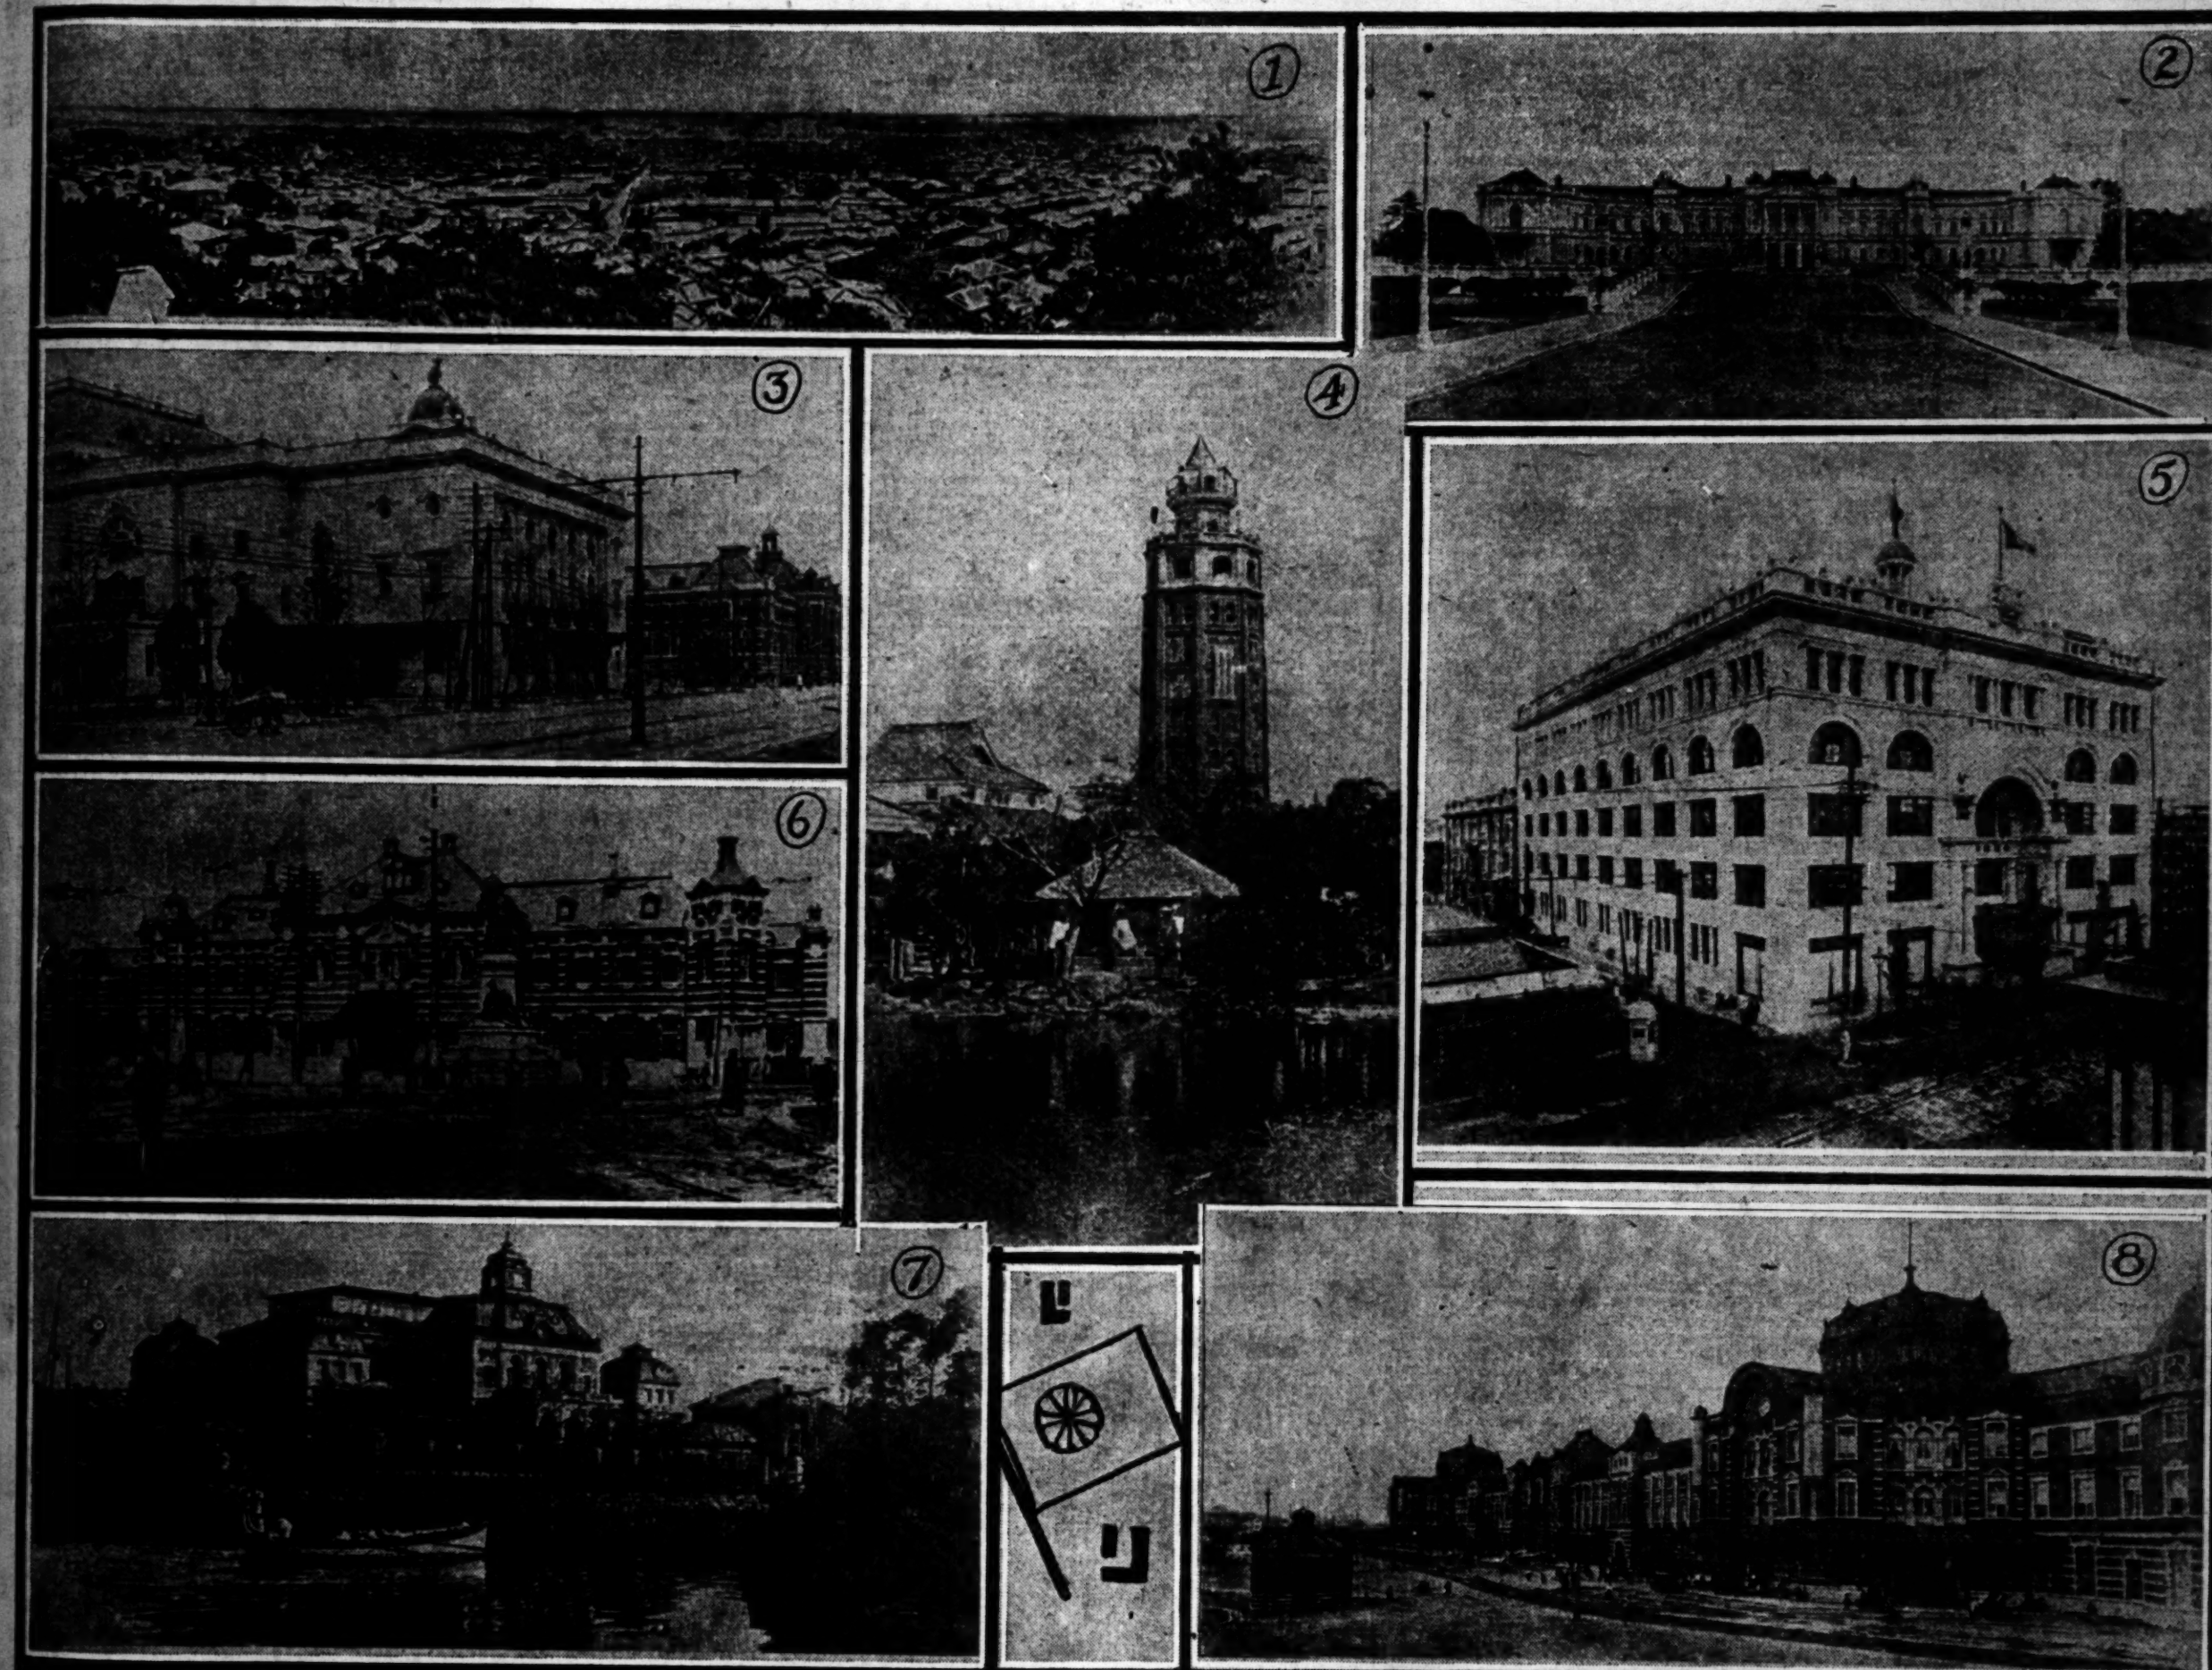

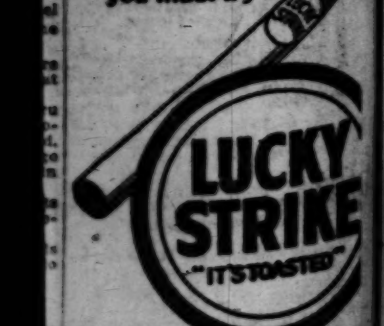

(BY A. C. NIGHT WIRE.) SPOKANE (Wash.) Sept. 2.—The first shock of the earthquake in Yokohama was recorded at 11 p.m. on the seismograph at Gonzaga University, according to Professor A. M. Jung. The most severe shock occurred at 7:58 and the last at 9:25. Mr. Jung estimated that the shock originated between 5700 and 6000 miles from Spokane.

FEEL IN GUAM

(BY CABLE AND ASSOCIATED PRESS.) GUAM, Sept. 2.—A trace of the earthquake which rocked Japan was recorded here yesterday afternoon on seismographs but it was not otherwise noted.

Apartment tenants of Cuba lost their gas stoves and move them at furniture, the landlord not supplying such articles.

To know how good a cigarette really can be made you must try a

Destruction Appalls World! No. 1, Panorama of Yokohama, which is virtually destroyed; No. 2, Imperial Palace at Tokio, razed by flames; No. 3, Imperial Theater, Tokio, which collapsed, killing hundreds; No. 4, Dyonkaka Tower, Asakusa Park, Tokio, shattered by quake; No. 5, Mitsukoshi Department Store, one of Tokio's finest, burned to ground; No. 6, Manseibashi Station, or old Tokio Union Station, destroyed; No. 7, Naval Museum, Tokio, leveled by temblor; No. 8, Imperial Railway Station, Tokio, reported burned.

FIRE VEIN SEARS EMPIRE

(Continued from First Page)

any volcano in Japan occurs in the year 684, in the reign of Emperor Temmu. A picture of fruitful peace and material prosperity unfolded before our eyes all along the shores of the Bay of Tokio. Where

thirty-odd years ago, when I had left Japan, there was nothing but endless clusters of thatched roofs of fishing villages and of farms. I saw a solid phalanx of tall factory buildings along the shore playing hide and seek with the green of the foothills, from Yokohama (the greatest of the naval stations of Japan) to where the Titanic arms of the shipping yards to Yokohama and Tsurumi proclaimed the presence of the port to the capital city of Japan.

In October of 1920 Yokohama had some 423,000 residents and at the time of my visit there it was hitting close to 460,000. At the end of 1921 there were no less than 7533 foreigners living in Yokohama. Chinese accounted for 4803 of them. At that time there were only 557 Americans, of whom 242 were women. Therefore the statement that there are more than 1000 Americans in the flames of Yokohama today may not be accurate.

Yokohama, like all other port cities of Japan, was showing the signs of after-war depression in shipping trade at the time of my visit. Nevertheless it had all the appearances of a mighty port which aspired to be one of the dominant harbors of the Pacific. I had the greatest difficulty in recognizing her as a Japanese port. She looked more like San Francisco or Seattle than one of the trade ports of the Immortal East.

From Yokohama on to Tokio it is one great stretch of feverish industrial enterprise. For this plain of Musashi is the mightiest plain in Nippon. It was here that the great founder of the Tokugawa Shogunate placed his capital city, there he erected the Chiyoda Castle—the present imperial palace—that he might dominate the whole united country.

In the eyes of Tokudawa Shogun there was no plain in the whole of Nippon as worthy of founding an imperial city as this plain of Musashi. The whole Yeddo city of the Shogun practically was in ashes. It was then that even the palace of the Shogun caught fire. And a heroic samurai made himself immortal by riding on horseback into the flaming palace, where all the palace ladies and attendants were running about and rescuing the young Shogun.

The Tokio of 1855 was a picture city of tiled roofs over one or two-story wooden structures. It covered no more than one-third the space which the Tokio of 1923 covers. The Tokio of 1923 is an entirely different thing. It is covered—especially in the business center of the city called Maruno Uchi—with hundreds of modern structures such as the Nippon Yusen Kaisha Building, the Mitsukoshi Building, the Marounachi Building—all modern stone, concrete or brick structures of seven and eight stories high—built by a New York construction company and costing more than 5,000,000 yet (\$2,500,000) each.

The Mitsukoshi department store reported to be wrecked is the largest department store in the Far East—a six-story modern structure of stone and brick. It stood near the Nippon bridge—the center of the city of Tokio from which all distances, not only of Tokio alone but of every point in the empire are measured. The present Tokio and Yokohama and all other large cities of Japan are the same for that matter—a mixture of the old and the new in architectural progress, the low, wood houses sandwiched in the tail company of modern skyscrapers.

OPTIMISM FELT OVER OUTLOOK

British Diplomats Refuse to
Get Excited

Uneasiness About Seizure of
Corfu Expressed

Jugo-Slavs Are Willing to
Concede to Italy

BY JOHN STEELE

(BY CABLE-EXCLUSIVE DISPATCH.)

LONDON, Sept. 2.—British dip-

lomats still obstinately refuse to

get excited over the Italian-Greek

situation, continuing to believe

that it will be localized and the

situation cleared in a few days.

No confirmation has been re-

ceived here of the reported inter-

vention of the Italians to occupy

Samoa, and it is not believed, as

it is stated that the Italians gave

assurances that they were not mak-

ing war on the Greeks, but merely

seeking Corfu as a pledge for

Greek reparations for the murder

of King George.

At the same time there is some

uneasiness about the choice of

Corfu as a pledge, as in Italian

hands it bottles up the Adriatic

and is a constant source of dan-

ger. The neutrality of Corfu was

guaranteed under the treaty of

1847, by Great Britain, France,

Russia and Prussia. There was

no Italian congress then but Italy

is considered bound by the treaty.

MOVE SQUADRON

The British Mediterranean

squadron, now at Malta, has been

ordered to Greek waters to observe

events and to report.

A circuit of the interested legat-

ions today found diplomats opti-

mistic regarding the Greco-Italian

crisis.

The Jugo-Slavs declared that

Belgrade has undertaken no mil-

itary measures on the Italian fron-

tier war was there evidence of

Italian aggression against them.

They said their treaty with Greece,

which the latter broke in 1915,

was a tentative move expression

of good will without military

commitment.

TIME QUESTION

The Jugo-Slavs further stated

that Plume did not constitute any

immediate menace, as the Jugo-

Slav delegates to the Rome con-

ference, formerly vacationing at

Aix Les Bains, had not returned

to Rome, following new instruc-

tions from Belgrade. Negotiations

are resuming in Rome, according

to the Jugo-Slavs.

The latter believe that the

Greeks will yield soon. When

asked if the Corfu occupation

threatened their sea ways, they

replied:

"As Great Britain and France

were the first signatories to the

treaty neutralizing Corfu, Jugo-

Slavs are taking no action.

A Greek diplomat said the cas-

ualties to the civil population

were fifteen. He added that about

300 Italians held the town.

The Italians were morn.

Peasants of

Janina Will

(BY CABLE-EXCLUSIVE DISPATCH.)

VIENNA, Sept. 2.—Theodore Ja-

pan, Austria's greatest Balkan ex-

pert, and former ambassador, de-

clares the Greek peasants in the

district near Janina, where the

Italian officers were killed, are

the most warlike and cruel of all

Epilotes.

This is the same population who

slowly roasted over a charcoal fire

Capt. Dukan and his son, accused

in 1913 of giving their services

Turkish troops in Macedonia.

He says, excited probably by propa-

ganda, will surely hide the mur-

derers in the mountains and the

government at Athens, with the

best intentions, will be unable to

find the perpetrators of the crime.

TOMBSTONE SWINDLES

CHARGED TO TWO MEN

(EXCLUSIVE DISPATCH.)

KANSAS CITY (Mo.) Sept. 2.—

Fifty to seventy-five Kansas citi-

zens are believed to have been vic-

timized in an asserted tombstone

swindle, the police revealed last

night. Two men, salesmen for the

Bonded Granite Company, 221 East

Thirteenth street, were arrested

and are being held for investiga-

tion of the alleged swindle scheme.

The supposed victims here are said

to have purchased monuments,

paying from \$20 to \$50, without

receiving them.

WOMAN DROWNS IN TUB

(EXCLUSIVE DISPATCH.)

KANSAS CITY (Mo.) Sept. 2.—

Mrs. Catherine Robinson, 3705

Bales avenue, was found dead in

the bathroom at her home. Ac-

cording to physicians, Mrs. Rob-

inson had drowned. In some man-

ner she had fallen over the edge

of the bath tub. Her head was

resting in a small tub filled with

water inside the larger tub.

SPIRITUALISTS PLAN COLLEGE

(EXCLUSIVE DISPATCH.)

INDIANAPOLIS, Sept. 2.—The

Spiritual Alliance Mediums' As-

sociation has bought sixty acres of

land near Philadelphia, Hancock

county, and has taken options on

an additional 240 acres with the

intention of expending \$200,000 in

the erection of a college, manor-

ium, cottages, hotel and construc-

tion of a twelve-acre lake. The

property will be known as Nervana

Spiritual Camp.

NIGHTIE GIRL BLAMED BY MRS. WELLS

Song Writer's Wife Says
Blonde Was Found With
Her Husband in Hotel

(EXCLUSIVE DISPATCH.)

NEW YORK, Sept. 2.—A blonde

woman wearing pink pajamas is

the Madam X in the divorce suit

brought by Mrs. Lillian Wells

against Gilbert Wells, song writer

and vaudeville singer and dancer.

The unnamed woman of whom

the wife complains was, she al-

leges, Mr. Wells's companion at

the City Hall Square Hotel in Chi-

cago on June 25, last, when a de-

ductive agency operative and a

Chicago police sergeant called on

the defendant at the hotel.

In her complaint filed in Su-

preme Court Mrs. Wells says that

when the two raiders went to the

hotel room Mrs. Wells opened the

door and admitted his identity.

The complaint further alleges

that the blonde found woman in

the pink pajamas, much per-

turbed over the intrusion, said:

"This is a mess. I'm in. I'm

just coming from New York," and

"Sugar, have you been in the hab-

it of having women in your

room? We have been married

three and a half years. Married

in Jersey City."

In an application for alimony

Mrs. Wells said her husband re-

ceived \$250 a week on the stage

and besides has a lucrative in-

come in royalties from his songs

and phonograph records. Also,

his wife says, he has an income

of \$4500 a year from two trust

funds created by his father and

grandmother.

The couple lived at the Hotel

Arnor and the Hotel Belvedere,

and their annual expenses, accord-

ing to the wife, were \$20,000 a

year. She quoted him as saying

he did not blame his wife for

going him and was "surprised she

stood for all he did."

Apparently the matter of al-

imony was arranged later out of

court, for Mrs. Wells withdrew

yesterday the application she

made to the court for alimony.

CHARGES DECREE

(EXCLUSIVE DISPATCH.)

INDIANAPOLIS, Sept. 2.—

Charging that his wife has been

deserted, Robert Hurd Briggs,

prominent resident of Macy, has

filed suit for a divorce in the

Miami Circuit Court at Peru. The

were married December 25, 1916,

and separated August 15, last.

vertisement.]

FEAR BALKANS MAY ENTER WAR

Believed Italian Policy May
Start Outbreak

All Europe East of Vienna in
Nervous State

Events Leading to World
War Compared

(BY CABLE-EXCLUSIVE DISPATCH.)

(Copyright, 1923, Public Ledger.)

VIENNA, Sept. 2.—All Europe

east of Vienna is intensely ner-

vous today over the events in the

Balkans and the reverberations

particularly sharp in Jugo-Slavia

and Hungary. The inevitable com-

parison with the events following

the Sarajevo murder in 1914 are

being made and it is commented

that Italy has truly taken upon it-

self the role of the old Austro-

Hungarian Empire, even to mak-

ing the same mistakes.

The Jugo-Slav press unanimously

declares it will not be surprised

if the Italian policy provokes a

new outbreak in the Balkans, and

in that case Jugo-Slavia would be

forced to align itself on the side of

Greece.

The grievances of Jugo-Slavia

against Italy since the formation

of the Jugo-Slav state are being

reviewed and enumerated in de-

tail. "Rilek" writes: "Italy could

have gotten friends throughout

the Balkans instead of performing

a policy of deliberately provoking

bandits."

FEAR IN JUGO-SLAVIA

It is officially feared in Jugo-

Slavia that Italy will land troops

in Albania to get control of the

Bay of Taranto, which act, accord-

ing to the best authority, would

be interpreted by Jugo-Slavia as

an invitation to war. The constan-

t propaganda of the Popovic

d'Alia against Jugo-Slavia is espe-

cially commented on and con-

demned.

The Albanian revolutionary com-

mittee headquarters in Vienna pre-

dicts in the next few days an up-

rising of pro-Italian Albanians

against the present Serbo-Croat

government, which prophesies have

been made ever since the Sinal

conference.

FEELING IN HUNGARY

In Hungary, although the press

is singularly reticent, there is no

disguising the fact that any dis-

turbances in the Balkans would

be bound to put an entirely new

complexion on Hungarian affairs.

Premier Count Bethlen is anxiously

trying to follow the same recon-

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor discoloration and a small dark spot near the bottom center. The left edge of the page is bound, showing the inner hinge and some text from the reverse side, which is partially visible. The text on the reverse side includes "THE UNIVERSITY OF CHICAGO" and "THE UNIVERSITY OF CHICAGO PRESS". The page is otherwise empty of any markings or illustrations.

NEWS OF SOUTHERN COUNTIES

CHURCHES JOIN
IN ANNIVERSARY

Methodist Congregation at
Van Nuys Ten Years Old

Edifice Was First Started in
That City

Initial Service Conducted in
Storeroom

(LOCAL CORRESPONDENCE)

VAN NUYS, Sept. 2.—On the 17th inst., the tenth anniversary of the dedication of the Methodist Church of Van Nuys will be observed with ceremonies to which all churches of Van Nuys will contribute. This was the first church organized here.

Records of the church show that in the summer of 1911 Rev. Willard Aldrich, pastor of the Methodist Church at Lancaster, conducted the first religious service in Van Nuys. At this service, conducted in a vacant store room, about twenty persons, almost the entire population of the place, were present and the first church of Van Nuys was organized. On November 13 of that year Rev. D. F. Barnes was chosen minister and the church was started with enthusiasm. A notation on the records says:

"In these services all Christians, regardless of denomination, united."

In August, 1912, a meeting of the official board was held and it was agreed to accept a donation of \$2400 from the town-ship company. The official board of individuals of \$1000 each, and \$500 from the church board and to build an edifice to cost \$1000. Thus the present church building came into being.

The present pastor, Rev. G. L. Goodell, reports that from an initial membership of twenty-two, the church now has a membership of 240 with a Sunday-school membership of 375. A new building for the Sunday-school, 30 by 60 feet, has just been completed. All old members and all former pastors have been invited to attend the ceremony.

George W. L. secretary of the Chamber of Commerce, and a former Methodist minister in the East, having an active interest in the celebration, is aiding in preparing for the event.

(LOCAL CORRESPONDENCE)

VAN NUYS, Sept. 2.—On the 17th inst., the tenth anniversary of the dedication of the Methodist Church of Van Nuys will be observed with ceremonies to which all churches of Van Nuys will contribute. This was the first church organized here.

Sierra Madre
Pours Bootleg
Wine in Ditch

(LOCAL CORRESPONDENCE)

SIERRA MADRE, Sept. 2.—Sierra Madre conducted the greatest liquor party in her history yesterday. All residents of the city were invited and needless to say they all attended. The party was held at the residence of Mrs. Mitchell and City Marshal A. M. Udell were the hosts.

Barrel after barrel of wine were opened by the city officials. There was plenty of liquor in the city and the party was a success. The city officials were not on hand, and the party was a success. The city officials were not on hand, and the party was a success.

KINGS COUNTY WILL
OPEN SCHOOLS SOON

(LOCAL CORRESPONDENCE)

HANFORD, Sept. 2.—The schools of Kings county, elementary and high, will open on the 17th inst., the date agreed upon at a meeting of the trustees of the various schools held last spring. Nearly all of the vacancies on the teaching force have been supplied and Miss M. L. Richens, County School Superintendent, expresses her pleasure at the personnel of the teachers signed up. The elementary school at Lemoore will have one additional teacher, as will that at Armona. Hanford missed an additional teacher by a shortage of only four in attendance. On the 15th there will be a meeting of all the county school trustees with the County Board of Education to discuss the program of work for the year.

POMONA INCREASES
ITS POLICE FORCE

(EXCLUSIVE DISPATCH)

POMONA, Sept. 2.—That a police force of fourteen men will be maintained regularly by the city of Pomona was decided by the City Council when the budget of the police department for operating expenses for the fiscal year beginning July 1, 1923, was brought up for consideration. Two extra men were recommended by the police force to relieve others during the vacation period and it was decided to leave them on regularly.

Heretofore the force consisted of only twelve men. In order to keep the tax rate down to \$1.50 per \$100 for the year the Council found it necessary to slash practically all of the budget estimates which were turned in by department heads.

CLUB PLANS
TWO OPERAS
FOR WINTER

Choral Union, This Week,
to Get Associate Members
in Wide Campaign

(LOCAL CORRESPONDENCE)

ANAHEIM, Sept. 2.—Led by their president, Mrs. C. A. McCullah, of Anaheim, members of the Orange County Choral Union will open their campaign today to sell 1000 associate memberships in the association within the next week. The choral union plans to present two operas this winter. The first will be "Robin Hood," which will be ready for the stage in November. The second, "Carmen," which will be presented probably in March or April. Two performances of each of these operas will be given in Santa Ana, one in Anaheim and one in Fullerton.

By the associate membership plan a decided advantage is to be gained by the members and by the organization as a whole, for upon payment of the fee each associate member is to be given six tickets to each of the winter performances.

Among the details of the campaign to be conducted this week is the plan to ask the newspapers of the county to give publicity to the drive and to print a coupon which may be filled out and mailed with a check to the campaign committee. During the week various luncheon clubs in cities of the county will be told of the work and plans of the choral union, and membership applications will be distributed by the active members.

During the last two years, while the organization was called a county choral union, much of the effort was centered in Santa Ana. This year it is proposed to extend the duties of officers and committees so that the organization will represent the whole county.

Uncertainty in
Wildcat Well
Near Torrance

(LOCAL CORRESPONDENCE)

TORRANCE, Sept. 2.—Uncertainty is reported to still surround the Peterson-Barker wildcat well, east of Torrance, now drilling at a little below 400 feet. While clinging to the belief that the oil and may still be reached, the men drilling the well admit that the outlook is none too good. The well is believed to be too far north to be on the structure.

The Standard's Dominguez No. 1, on its big bend, is now down 1700 feet, having passed through the hard formation which made progress slow. The outlook for production in the Fortuna Oil Company's well, one of the most southerly of the host of new wells going in below the Midway Northern's record producer, is said to be excellent.

The well is now down about 2900 feet and the formation is reported to be only a few feet lower than the Redondo Boulevard well. R. W. Edens, who drilled the Midway Northern well, is drilling the Fortuna lease.

Y.W.C.A. Girl
Assumes Duties
at Crown City

(LOCAL CORRESPONDENCE)

PARADENA, Sept. 2.—Succeeding Miss Wilhelmine Loos, who was forced to resign on account of ill health, Miss Edna H. Porter today assumed her official duties as general secretary of the Pasadena Y.W.C.A.

While directors of the organization expressed their regrets at the loss of the former secretary, they feel confident that Miss Porter will handle the work with the utmost success and efficiency.

In preparing for the work the new secretary attended the University of Iowa, graduated from the National Training School of the Young Women's Christian Association and since then has held positions with the organization in various cities. For some time she was assistant general secretary at Stockton, Iowa, and general secretary for three years at the Phoenix association. Miss Porter came here from Deer where she served as secretary for business girls.

DOCTOR ANSWERS CALL,
BUT FINDS IT HOLD-UP

(LOCAL CORRESPONDENCE)

LONG BEACH, Sept. 2.—Dr. Edward E. Heathcock, district surgeon of the Standard Oil Company, was robbed today by a man who said he was an oil worker with a writ in a little better condition. Dr. Heathcock was roused by the man at 4 a.m. at his office and residence, at Hill street and Atlantic avenue and the man fled for the call. The supposed oil worker went along to show the way. At Hill and Cherry streets he produced a revolver and forced Dr. Heathcock to hand over \$25, a diamond ring and a watch worth \$2000. He alighted and got into an automobile that was following, then drove away.

ECLIPSE DRAWS MORE
OBSERVERS TO COAST

(BY A. P. DAY WIRE)

SANTA BARBARA, Sept. 2.—James Worthington of London and Dr. Alfred E. Burton, president of the Mount Wilson Institution of Technology, arrived here today to organize an observation camp on Mount San Antonio for the study of the solar eclipse on the 10th inst. The party will be in charge of C. C. Ritchie of the Mount Wilson Observatory. Mr. Ritchie and a party of other scientists will join Mr. Worthington and Dr. Burton within a few days. It was said. Mount San Antonio is located north of Santa Barbara near Lompoc and almost in the center of the totality zone.

MAKE RAISIN
LOAN RULING

Federal Farm Credit to be
Extended in Valley

Dried Fruit is Placed on
Eligible List

Many Vineyards Will Profit
by Decision

(EXCLUSIVE DISPATCH)

FRENO, Sept. 2.—Decision to place untanned raisins in the lowest box and dried prunes in the eligible list for loans under the Rural Credits Act has been announced at Washington by the Federal Farm Loan Board, according to news received here.

Dried peaches, apricots and pears also were considered by the board, but none placed on the eligible list because it was believed that sufficient evidence had not been submitted as to the keeping qualities as such as to warrant loans on a six-months' minimum basis.

Raisin and prune interests desiring loans can now submit their applications to the Federal Farm Loan or intermediate credits bank at Berkeley. The ruling was based on recommendations of officials of this bank.

EXPLAINS RULING

Commenting on the announcement from Washington, Harry M. Beach, counsel for the Sun-Maid Raisin Growers, said here today that the association has been working for months to have raisins included in the bank loans list and recently Creech, as counsel for the association, furnished W. D. Ellis, president of the intermediate credits bank of Berkeley with briefs and a report on the raisin situation.

As explained by Creech, who has been in touch with the farm loan act, and is special counsel for the War Finance Corporation, which has \$25,000,000 still out on loans in this district, the inclusion of raisins on the intermediate credits list of collateral will not make a difference in the bank's position. The intermediate banks can only lend to financing institutions, he points out, but the placing of raisins on the list stabilizes raisins as collateral and places the commodity on a better basis than a banking standpoint.

CROP POOL CLOSED

Creech does not anticipate that the Sun-Maid Raisin Growers will sue the Federal Farm Loan Board, he said, nor that the action of the Federal Farm Loan Board will change the present program of the association. But this action of the board will materially aid the raisin business as a whole by strengthening the position of raisins from a banking standpoint.

The association's old raisin crop pool closed today. Within a week or ten days, Creech added, an audit will be under way to show exactly what tonnage each grower has delivered. Today's action what has been paid and what is due each vineyardist. Ninety days may be required for this audit.

Missing Three
Weeks; Found
Dead Under Car

(EXCLUSIVE DISPATCH)

VENTURA, Sept. 2.—Disappearing three weeks ago, Fred Stewart, prominent young rancher of Moor Park, presented a mystery which baffled authorities until today when his dead body was found beneath the wreckage of an automobile near Stewart.

Stewart had been on his way to Ventura from his ranch on the night of August 11. That was the last time he was seen. Today he was found in an unrecognizable place, play in an unfrequented place near Saticoy saw a wrecked automobile. Investigation showed a foot sticking up through the running board of the car. The children summoned help and the wreckage was removed.

TAX RATE WILL STAY

(EXCLUSIVE DISPATCH)

ORANGE, Sept. 2.—When Orange folk observing Labor Day as a legal holiday, return to their tasks Tuesday morning the city tax rate will have been established. In accordance with the State law which stipulates that the tax must be fixed the first Monday in September, the City Council will meet Monday morning to set the rate.

According to W. A. White, City Clerk, the new rate will be the same as last year, \$1.65 per hundred. The new rate, White said, will raise a larger revenue owing to the increased assessed valuation, which totals \$6,000,000. It is anticipated that in the coming year the city will do a volume of business exceeding \$155,000, as compared with \$130,000 this year.

NEW SCHOOL VOTED

(EXCLUSIVE DISPATCH)

ORANGE, Sept. 2.—Orange citizens authorized the Elementary School Board to purchase a tract of land in the newly annexed area of the city for a new grade school to cost about \$40,000. The board voted to acquire the site within thirty days. A bond issue covering building and site is expected to be voted before the school holidays. Although a new school was added to the local system last year the district has grown so rapidly that crowded conditions will not be greatly diminished when the fall term opens this year. George W. Sherwood, district superintendent, told the assembly. The new school is to be of stucco construction, built on a slight depression in the San Rafael range leading into the

FIRST HOSPITAL, THEN JAIL

West Riverside Man Faces Dry Charge After He
Was Injured in Assorted Still Blast

(EXCLUSIVE DISPATCH)

RIVERSIDE, Sept. 2.—Out of the hospital and into jail for asserted violation of dry laws was the fate of George M. Marvedo, a Portuguese rancher, who lives two miles southwest of Rubidoux Bridge, in West Riverside.

Marvedo, it is stated, completed his still on August 22, last, with a concrete ceiling under a hen house. The place had been fitted with electric lights and the still was heated with electricity, so that there would be no evidence of fuel, agents charge.

A few hours after he is alleged to have completed his distillery it exploded, destroying the hen house. Marvedo was burned about the face, hands and body.

His case comes up for trial next week.

Orange County
Smash-Up Sends
One to Hospital

(EXCLUSIVE DISPATCH)

ORANGE, Sept. 2.—Although the boulevards were alive with holiday pleasure seekers, headed for the seashore, mountains and other resorts, only one hospital auto accident had been reported in this vicinity up to a late hour this afternoon.

A. R. Williams, 492 Samoa street, Los Angeles, received hospital attention. While riding his motorcycle near Austin shortly after noon he was crowded off the road, according to his story, and thrown from his mount, sustaining a dislocated shoulder and other injuries. He was treated at the Community Hospital at Santa Ana.

SCOUT BAND PROPOSED

(EXCLUSIVE DISPATCH)

RIVERSIDE, Sept. 2.—A Boy Scout band is the newest feature of County Scout Executive Merritt's program for scout activities during the coming winter. Mr. Merritt says plans are under way, and a definite announcement will come in the near future.

A number of scouts of local troops are already playing instruments, and others have signified an interest in a band. Mr. Merritt believes it will be possible to provide lessons and a band leader. The scout office would like to receive word from any scouts who have an interest in band work.

FIGHTERS CURB FOREST FIRE

Flames Kept From Crossing to South Side of Santa
Ynez River; Lodges Believed Safe

(EXCLUSIVE DISPATCH)

SANTA BARBARA, Sept. 2.—With the aid of large forces conscripted from Santa Barbara's streets, the Santa Ynez Valley forest fire has been kept from crossing to the south side of the Santa Ynez River, and mountain lodges are believed safe.

The fire has burned through a large expanse of brush-covered country and grazing land. Change of the wind during the early morning has driven the fire back. Flames today have been roaring through Osa and Canyons, the immense funnel-shaped depressions in the San Rafael range leading into the

Long Beach Youngster is
Deserted by Mother; Dad
is at Sea

(LOCAL CORRESPONDENCE)

LONG BEACH, Sept. 2.—With only six months of existence behind her, Wanda May Howard, blonde and blue eyed, has come to the conclusion that life is not all that she was lead to expect. Wanda has not voiced such a conclusion for her vocabulary is limited to just a few words, but every expression of her comely little face shows that few days indicate that as she looks about at the walls of the juvenile department here.

Wanda's father, a seaman, is in the position of a child without immediate and personal parents. She has parents but they seem to be anywhere but on the job. On August 16, last, Wanda was left by the mother with Mrs. Mary Drew at 448 West Sixth street. Since that time the mother, Mrs. John Howard, has not been heard from, police say. Being unable to give the child proper care Mrs. Drew turned Wanda over to the police. The father, police learned, is a sailor on the U.S.S. Seattle, due at Los Angeles Harbor on the 18th inst. The baby will be held by the juvenile authorities until her sea-faring daddy arrives, when officers will ask him what he intends to do about Wanda's future.

FLYING BIRD CAGE

New Zoo Equipment Will be
Dedicated at San Diego

(EXCLUSIVE DISPATCH)

SAN DIEGO, Sept. 2.—The San Diego Zoo's new flying cage, the largest structure of its kind in the world, will be dedicated Saturday. The birds which will make their home in the great inclosure will be placed in the cage early this week and will be "at home" when the dedication exercises are conducted.

The cage, built at the cost of \$15,000 was made possible by Miss Eileen Scripps of La Jolla. Amusement Corporation and manager of the zoo.

The flying cage occupies space in a canyon leading from the small animals' case to the pond. It follows the contour of the canyon. It is sixty feet wide at one end and ninety feet in width at the other. It is 300 feet in length. The lower end attains a height of eighty feet. The cage will have much of the freedom of the open spaces.

Among the "inhabitants" of the flying cage will be the "wading birds," a number of fine specimens, being numbered among the zoo family. The collection includes an interesting one, including Victoria Crown Pigeons, Curassow from South America, and several other species of several varieties, plovers and other small birds.

Sox Trimmed by Hollywood in Feature Sand-Lot Contest

Firemen Fall Before Oilers in Fast Game

Behind excellent pitching by Nick Carter, formerly of the Humboldt County League, the Montebello Oilers scored a 6-to-3 victory over the strong Compton Fireman yesterday on the Compton lot. Carter allowed the home club but five hits and three runs in the nine

On the other hand Buckley was overly generous, and was nicked for fourteen blows and six runs by the ambitious Montebello battlers. The Andrade tribe did most of the heavy sticking for the winners, keeping eight blows within the family circle. Ingle roped two

hits, a single and a double, in four trips to the plate and handled eight chances without a bobbie.

The Oilers play the fast San Gabriel Merchants at Montebello today in what should be an excellent contest. Williams will handle the chucking for the Montebello club. The score:

NEW WELL TO EXTEND FIELD

Much Activity is Expected at Huntington Beach

Shields No. 1 is Producing 1500 Barrels

Drop in Output Recorded in This District

(EXCLUSIVE DISPATCH) HUNTINGTON BEACH, Sept. 2.

Much activity is expected to follow the bringing in of Shields No. 1 well with a flush production of 1500 barrels of twenty-seven gravity oil per day. The well, located west of Delaware avenue on the north side of Springfield, is the first well of importance to be put on production in this district, and proves up on an extension of the Huntington Beach field.

Shields No. 1 was drilled to a depth of 1700 feet and contains an oil string of 513 feet of screen casing. The gas pressure at the casing head is 100 pounds. The well is owned by the Utica Oil Company, which is financed largely by Salt Lake City capital.

OFFSHORE WELLS

The Utica Company began drilling on this lease two years ago. The first well was a failure. The rig was skidded and a second well was started. This was the Shields No. 1, which has just come in.

This well is an offset to the No. 2 well of the Sun Oil Company, which lies about 600 yards east and which came in May 4, 1912, making 500 barrels of twenty gravity oil.

The Shields No. 1 was the only new producer at Huntington Beach last week.

There was another drop in production last week, the total daily production being 104,733 against 111,122 last week, a drop of 6383 barrels daily for the week. The well average dropped from 430 to 380 a decline of thirty barrels daily. There are 489 rigs in the field, including two new ones for the week; 196 are drilling, 273 are on production; of these 149 are flowing and several are pumping. There are 110 incomplete rigs.

NEW RIGS UP

The first of the new rigs in the Standard Oil Company's D-5 which is located on Wesley avenue near Seventeenth street, and is an offset to the Sun Oil Company's No. 4, which is producing in the second zone.

Indianola Oil Buys Interest in Humphreys

(BY A. P. MONT WIRE) DENVER, Sept. 2.—Completion of the sale of the stock of the Humphreys Oil Company to the Indianola Oil Company, a subsidiary of the Pure Oil Company, was announced by A. E. Humphreys, Jr., treasurer of the company today. The transaction involves the payment of \$25,000,000 for 450,000 of the 600,000 shares outstanding at the rate of \$50 per share. The transaction also involves the payment of \$25,000,000 for 450,000 of the 600,000 shares outstanding at the rate of \$50 per share.

The holdings of the Humphreys Oil Company by the Humphreys Petroleum Company are also to be conveyed to the Indianola at the rate of \$50 per share for the 450,000 shares. The other assets of the Humphreys Petroleum are not to be conveyed.

A new corporation will be formed and its stock distributed as dividends to the shareholders of the Humphreys Petroleum Company.

ONE WELL GIVES TOWN GAS, FUEL AND LIGHT

The little town of Artes, N. M., is the only town in New Mexico which boasts of a supply of natural gas for fuel and light. The gas is supplied from a well, one mile south of town, which is producing at the rate of 5,000,000 cubic feet per day from a sand at a depth of 80 feet.

There are two other similar gas wells near the town. A California syndicate will install a gasoline absorption plant and a carbon black factory, it is said.

OFFICES MOVE FROM HOUSTON TO TUCSON

(EXCLUSIVE DISPATCH) TUCSON (Ariz.) Sept. 2.—The offices of the East Coast Oil Company are being moved from Houston, Tex., to Tucson. The corporation is now controlled by the Arizona Eastern Railroad Company, which has headquarters here. B. Titcomb is president, and J. E. White, treasurer, of both companies. The oil company controls 10,000 acres on the Mexican east coast and its output of 600,000 barrels a month is mainly sent to railroads for use in Mexico, Texas and Louisiana.

MAY WIDEN FIELD

Locations farther southwest of the Signal Hill field than any heretofore created will be added in the near future. The three derricks are to be erected near Golden avenue and Twenty-ninth street by Frank Morrey, E. M. Hummel and W. R. Proctor.

DOUBLE MILL CAPACITY (EXCLUSIVE DISPATCH) NOGALES (Ariz.) Sept. 2.—The Roy & Titcomb Company has completed installation of a new power plant for the mill of the Palmar Mining Company near Nogales, Sinaloa. The capacity of the mill thus has been doubled.

REVIEW OF OIL ACTIVITY

Huntington Beach Slows Down Under More Orderly Drilling; Torrance Shows Symptoms of Oil Frenzy

BY HOWARD C. KEGLEY

As the year grows older it becomes more and more apparent that when the peak of flush production is reached in Southern California—probably within the next six weeks—Huntington Beach will be doing little to embarrass the oil producers.

This field has been dipping off from 100,000 to 115,000 barrels per day for months, but in recent weeks it has only been turning in from one to four new producers per week, with the average probably about two, and these of moderate size.

Quite a number of authorities on geology and production have reached the conclusion that Huntington Beach has gone past its peak, and this is perhaps true, but it should not be taken for granted that the field is "on the wane," because it is not—at least big oil men do not think so.

BOOM DAYS ARE OVER

They assume that, because the deeper sands have been fully tested, the field may not be expected to turn in any more gusher production, and that it will hold out no strong inducement in the future, for intensive drilling operations, particularly for the reason that many of the promotion enterprises have abandoned their activities to fields where bigger producers may be expected.

It is to be expected that Huntington Beach wells will be drilled hereafter in a more orderly manner and that the continuation of bringing up good quantities of oil. Some of the producers believe that the field will last longer.

The properties there are now held largely by the big companies, and this is one indication that the field will not soon be "drilled to death."

Some idea of the extent to which the Huntington Beach situation is handled by the biggest producers may be gathered from the fact that of the 1200 rigs now operating produced there now the Standard Oil Company is producing 25,000 barrels, the Amalgamated Oil Company, 24,000 barrels; the Union Oil Company, 14,000 barrels; the Shell Company, 6500 barrels; the Petroleum Midway Company, 5000 barrels. This is virtually 70,000 barrels of the total output.

TORRANCE A COMER

It seems more than likely, in the opinion of some of the biggest producers that the Torrance field will be approaching its peak in the near future. The field is now producing 100,000 barrels a day, and is expected to reach 150,000 barrels a day in the near future.

Several syndicates outfits have already been formed, and more are expected to start work there in the near future. Most of this activity is virtually a result of the recent bringing in of the Midway Northern Oil Company, which is producing 100,000 barrels per day. The vicinity of this well is already dotted with new rigs.

The operating director of one of the biggest producing companies in Southern California made the assertion a few days ago that he expects to see some real gushers in the vicinity of Torrance before the end of the year.

During the week just closed Long Beach hit the high mark with nine new producers, while Santa Fe Springs claimed eight and Huntington Beach chalked up one. The average for the eighteen new producers was more than 3000 barrels apiece.

LONG BEACH

Following is the list of new wells:

Sandburg Petroleum Corporation, crew No. 1, 1200 barrels, at 5112 feet; Petroleum Midway Company, Bauman No. 1-B, 600 barrels, at 5917 feet; McKee Drilling Company, Monrovia, No. 11, 3000 barrels, at 4612 feet; Standard Oil Company, Alamitos No. 6, 3000 barrels, at 4890 feet; United Oil Company, Haas No. 6, 6000 barrels, at 4241 feet; Buster Keaton, Keaton No. 1, 2000 barrels, at 5181 feet; Graham Loftus, G. & L. No. 1, 2000 barrels, at 5181 feet; Marine Oil Corporation, Marine No. 13, 500 barrels, at 4270 feet.

SANTA FE SPRINGS

Oscar Howard, Hathaway No. 2, 600 barrels, at 4604 feet; Buckeye Union No. 1, 3000 barrels, at 4600 feet; General Petroleum Corporation, Santa Fe No. 27, 4700 barrels, at 4740 feet; Universal Oil Company, Blanchard No. 2, 2400 barrels, at 4632 feet; Associated Oil Company, Clark No. 1, 2500 barrels, at 4600 feet; General Petroleum Corporation, Santa Fe No. 77, 5000 barrels, at 4700 feet; Associated Oil Company, Clark No. 2, 2500 barrels, at 4600 feet; Wilshire Oil Company, Fraser No. 2, 2500 barrels, at 4600 feet.

HUNTINGTON BEACH

Utica Oil Company, Shields No. 1, 1500 barrels, at 8705 feet.

LIST OF PERMITS

There was a marked falling off in the number of permits for new wells issued by the local office of the State Mining Bureau last week. Following is the list of permits:

Midway Oil Co., No. 25, Huntington Beach, 1000 barrels, at 4600 feet; Standard Oil Co., No. 1, Huntington Beach, 1000 barrels, at 4600 feet; Standard Oil Co., No. 2, Huntington Beach, 1000 barrels, at 4600 feet.

California's Daily Oil Production

Week ending August 25 (Barrels)

MARKETS HAVE BRIGHTER LOOK

Confidence is Felt in Fall Trade Outlook

Coal Strike Parley Has a Deleterious Effect

Farmers Said to be in More Cheerful Mood

(BY A. P. MONT WIRE) NEW YORK, Sept. 2.—More confidence over fall trade prospects reflected by a quiet forward movement in stocks and improved sentiment all around were noticeable in financial quarters during the last week. While improvement in the stock market has not proceeded far enough as yet to attract the attention of the general public, many active traders are reported to be working on the constructive side. The advances resulting from the coal strike parley, which have been active this week, are ordinarily possible when conditions are favorable for a rising market.

The breakdown in the negotiations between the mine operators and the unions looking toward avoidance of the suspension of mining is reported to have had a restraining influence on trading with some operators characterizing it as a depressing influence. It was pointed out by some, however, that the effect on industry would be neither immediate nor disastrous. The oil situation is still unsettled, the chief difficulty of the oil companies being described as the necessity of taking lower prices in order to lighten stocks on hand.

TRADE GETTING BETTER

Signs, meanwhile, are increasing that trade is breaking away from the summer lull. Employment has fallen off somewhat and this is construed in many quarters as indicating less likelihood of further curtailment of labor. The probability that manufacturing profits are likely to be maintained, in spite of the coal strike, is also pointed out by some. The steel industry shows that goods have been moving into consumption at a good rate.

In the steel industry, good authorities point out that activity will not increase a good deal in the near future. The steel industry shows that goods have been moving into consumption at a good rate.

REDUCE COTTON CROP

The government cotton report confirms the belief that the boll weevil and drought in the South will greatly reduce the cotton yield. While this will mean less revenue to the government, it will at the same time mean higher prices for the cotton. When the cotton crop is reduced, the price of cotton will rise, and this will be a good thing for the cotton growers.

GOOD STOCKS STRONG ON LONDON CHANGE

CONTINENTAL BUYING SHOWS FIRM POSITION OF BRITISH CREDIT

(BY CABLE-EXCLUSIVE DISPATCH) LONDON, Sept. 2.—The chief feature during the past week on the London Stock Exchange was the continued buying of British securities. The buying was particularly noticeable in the case of the British government securities, which were sold at a premium.

WELL NEAR LINCOLN PARK IS ABANDONED

Drilling has been abandoned on the California Pacific test well east of Lincoln Park and the casing is being pulled. The well, which was drilled to a depth of 2100 feet, made good showings all the way down to 2100 feet. The well was abandoned because of the cost of drilling and the fact that the well was not producing.

ARIZONA MINE ORE CALLED JEWELRY

(EXCLUSIVE DISPATCH) CASA GRANDE (Ariz.) Sept. 2.—About 6000 tons of exposed ledge matter has been explored in the past few months on the Greenback mine forty miles south of this city, under the management of Paul Hineshaw. From a drift at ninety-six feet depth is being taken gold ore of the highest quality, sparkling with free gold. Development is proceeding on several veins from five to twenty feet in width. F. W. Royer of Los Angeles is consulting engineer.

MELCZER WELL TO BE DRILLED DEEPER

Work of cleaning out and re-drilling the old Melczer No. 1 on Willow street, east of Cherry avenue of Long Beach will be started at once by the Western Drilling Company. It was announced Saturday that the well was originally drilled to 4400 feet, but it failed to yield at that depth and subsequently was abandoned. The well is now being re-drilled to 5000 feet.

FIRST RIG GOING UP

The first rig is being erected on the Southern Pacific right of way at Santa Fe Springs. The drilling on this property which extends from Telegraph Road to Fullerton, will be done by the Amazon Drilling Company.

DRILLERS RUN RACE AT DRILLING WELLS

A race between that No. 1 and No. 2 wells of the Doherty interests being drilled under contract on the Union Pacific right of way in the Signal Hill field began Saturday with the No. 2 well located about a mile east of the No. 1 well. Early yesterday morning both wells logged 4237 feet and late yesterday both were continuing the race, each making hole, foot for foot, with its rival.

NEW TESTS ON NEAR COALINGA

San Joaquin Oil Men Turn to Virgin Territory

Big Companies Have Eyes on Prospect Work

Kern County District Gets Renewed Attention

(EXCLUSIVE DISPATCH) BAKERSFIELD, Sept. 2.—Virgin old territory now being tapped in the Coalinga field of the San Joaquin Valley may be the means of bringing the Central California fields back into prominence despite over-production elsewhere over the country.

Business men and oil workers of the valley are turning their attention to the thump of the bits as they hammer and grind their way toward the "liquid gold" sands of the valley.

In the Coalinga field, paying production from any one of the new wells will mean the opening up of a vast additional acreage to the proven oil areas.

In what is known as the Jacinto District, the Snowline Oil Company is operating on Section 22. A well has been drilled to a point below 2800 feet and encouraging signs have been encountered, with liberal showings of brown and blue shale.

GEOLOGISTS ON JOB

Geologists from the General Petroleum, Standard, Associated and Pacific Oil Companies, whose headquarters are in the Los Angeles area, are keeping a close watch on the log of the well. The well is in the same formation as the Bobemian and Amos wells which came in with good productions a few years ago, but were abandoned because of water difficulties, which it is believed, can be overcome now with improved methods. The work on the Snowline well is under the direction of D. P. Clancy.

Interest is manifested at the present time in the new field just north of Bakersfield and adjoining the Kern County District, where the Piper is putting down his No. 1 hole.

Leases are changing hands daily in this district and rumors of several big companies planning to start drilling soon have been circulated in Bakersfield during the past two weeks. The Piper well was spudded in this week and rapid progress is being made.

The Formax Oil Company, which has had considerable success lately in the district just south of Twenty-five Hill, in the Midway, has started two new wells. The wells are known as Nos. 7 and 8 and are located in Section 36, 22-24. In the same section the Big Ten Oil Company has spudded its No. 3 well. The work on the Formax well has just started a crew of drillers at work on its No. 4 well in the Midway on Section 5, 22-24.

The Pacific has completed tests for water shut-off on two other wells in the Kern county, one being on Section 1, 24-25 in the Midway and the other being located on the Elk Hills on Section 35, 30-24.

OTHER ACTIVITIES

In the McKittrick District the McKee Drilling Company has spudded its No. 1 well on Section 29, 20-22.

The Standard Oil Company is deepening its No. 6 well on Section 28, 31-23 in the Midway. The Reserve Oil Company's well southeast of the California property, known as the Bush well, has had to be re-completed, and will be brought in as soon as the test is made.

The Elkhorn Oil Company of California has just purchased 150 acres in the Kern River field from H. E. Kemp of Oakland, paying \$200,000. The land is located in Section 30, 23-25.

The Pan-American Petroleum Company has just completed the test for water shut-off in two wells in the Elk Hills, the Nos. 8-G and 2, located on Sections 31, 24-24 and 31, 21-23, respectively.

The Globe Petroleum Corporation, which has been drilling on the Tejon ranch, Section 22, 12-14, in the Kern county, has just completed a test of its well and indications are that oil will be struck soon, thus proving a new territory southeast of Bakersfield, far from any producing well at the present time.

IVANHOE PROPERTY WORK ENCOURAGING

(EXCLUSIVE DISPATCH) BISBEE (Ariz.) Sept. 2.—Workings in the Ivanhoe property on the 200-foot level are reported in a brecciated zone that gives encouragement to the operators. The shaft is to be sunk to 600 feet, with drilling on the 400 and 600-foot levels said to correspond to similar depths in the Borne and Nighthawk mines, where ore of large value has been found.

Elihu Root's Opinion on Best Way to Pay Estate Taxes Without Sacrifice of Securities

"I have come to the distinct conclusion that by far the best, and indeed, almost the only practical way of guarding against the possible ruinous loss by a forced sale of securities for the purpose of paying the various estate and inheritance taxes that are being imposed nowadays, both by the national and state governments, is by means of life insurance, which, for a moderate annual payment, will insure the sum necessary to pay such taxes without the sacrifice of the securities."

Our Legal Dept. will gladly assist you—without cost or obligation—to compute the amount of these taxes on your estate, and outline a schedule of protection adequate to your needs. Telephone for appointment.

NINE WELLS GO ON PRODUCTION

Total of 22,700 Barrels is Added in Signal Hill

Two Small Pumps Brought in During Week

Has No. 6 Leads List for Average Output

By a "Times" Staff Correspondent
LONG BEACH, Sept. 2.—Nine new wells added a total of 22,700 barrels to the already large daily output of the Signal Hill field during the week just closed. In addition to nine new producers the field brought in two small pumps with another well showing good promise, but bringing up salt water. Still another well flowed by heads.

Of the new producers the United Oil Company's Has No. 6 led the week's list with a steady output reported to be 500 barrels a day. The Has No. 6 was completed at the 1255-foot level.

Four of the new wells are in the 1900-barrel class or better. These are the Shell Company's Alamos No. 6, brought in Thursday from the 4850-foot level, with an initial production of 300 barrels; McKee Drilling Company's Monrovia No. 11, completed at the 4815-foot level with a flow of 300 barrels; and the Marine Oil Corporation's Marine No. 2 and Marine No. 19, with a production of 300 and 250 barrels daily, respectively.

OTHER GOOD PRODUCERS
Next in importance from the production standpoint is the Graham & Loftus No. 1, which showed an initial flow of 200 barrels when brought in Friday night at the 3181-foot level. The other producers are the Buster Beaton No. 1, completed at 4600 feet and now flowing at the rate of 1400 barrels; the Bauman I-B, with a flow of 500 barrels; and the Sandberg Petroleum Company's Crew No. 2, completed at 5212 feet for a 1200-barrel production.

The Dabney No. 11, owned by the Dabney interests, showed a large production of salt water and the flow was killed to permit drillers to get at the seat of the trouble. Another well that gave good promise but was killed.

WELLS COMES IN FRIDAY

The Graham & Loftus No. 1, on Grand View avenue at Willow street, is the only well of that organization which was not drilled by the Federal Oil Company.

The well was brought in late Friday night from the 5181-foot level and the initial flow was reported to be approximately 2000 barrels.

Tests showed a flow line pressure yesterday of 215 pounds to the square inch.

The Marine Oil Corporation was the only organization in the field with a record for two wells during the week, that honor for the last several weeks having been won by the Shell Company. Marine No. 2 and Marine No. 19 went on to production early in the week, adding 550 barrels daily to the company's total production.

Arizonans Will Attend Session of Mining Body

PHOENIX (Ariz.) Sept. 2.—Arizonans who will be present at the Milwaukee convention of the American Mining Congress from the 24th to 29th inst. will include Robert L. Tally, general manager of the United Verde Copper Company, Jerome John of the Calumet & Arizona Copper Company, Warren P. G. Beck, general manager of the Phelps Dodge Corporation, and Douglas J. L. McIver, Phoenix mining engineer.

W. Van Dyke, president of the Van Dyke Copper Company of Miami, and George Panettier, Tucson, representing the University of Arizona.

Permit has been granted by the Arizona Corporation Commission to the New King of Arizona Mining Company of Yuma county to sell to the United Verde Copper Company, the proceeds to be used for development and equipment of gold mine at Kofa.

Raymond Spilbury, now in Arizona on a tour of western smelting enterprises, is superintendent of the Cerro de Pasco smelter in Peru. The works are believed the highest of the sort on earth, being at an altitude of 14,000 feet on the slope of the Andes. About 7,000,000 pounds of copper a month is produced at this plant.

If an extension of the proven area is to be found it will doubtless be found in the vicinity of the wells now being drilled as tests, in the southeastern and western districts from the field, operators predict.

The largest well of the week was placed on production by Oscar Howard on the 24th inst. and was drilled 4934 feet deep. This well, which is a sister to one placed on production several weeks ago on the same lease, made 6600 barrels of oil. The oil was 32.5 degrees gravity. Mr. Howard is the owner.

The other companies for the construction of an oil storage reservoir in the Los Cerritos territory, directly west of Signal Hill field, and which has aroused considerable opposition on the part of property owners in that district, have just started work, as announced by Charles McGee, field superintendent for the company.

The plans for the erection of a storage basin at the intersection of Cota and Lincoln avenues, not far from the Pacific Electric right of way, the basin will be an earthen basin with a capacity for 250,000 barrels of oil and will be 200 feet wide.

Nothing but the roof of the huge basin will show above ground. Mr. McGee says the basin will be submerged. The reservoir will be lined with concrete and fire hazard is a problem. The field superintendent asserts.

DRILLING ACTIVITY

Much Progress Being Made in Torrance Field

Excellent progress is being made on the Sentinel Oil Company leases at Torrance. Rigging is up on the east extension of Joughlin No. 1, about 160 feet from the Sentinel Oil Company's well, now drilling on the Dominguez property. Spudding will start in a few days.

On the Martin lease, 300 feet from the Midway Northern's gusher, good headway is being made. All preparations have been made for drilling. Boilers are set and rigging is being made. The Young lease in Carson street.

The Sentinel Oil Company holds leases on between 300 and 400 acres at Torrance and three wells are now drilling.

PROSPECTORS SEEKING FOR OIL IN ARIZONA

HOLBROOK (Ariz.) Sept. 2.—A decided revival of interest in oil is manifest, due largely to the energetic work at the Taylor-Fuller well, where the drill now is down about 2000 feet, latterly in a sticky gumbo in which a number of gas and oil pockets have been found. Paul J. Otto of Los Angeles, member of a firm that is said to be heavily interested in the Santa Fe Springs field, has secured leases on large tracts of land near Holbrook and is reported preparing to drill. Much comparison has been known to local geological structures with the logs of producing wells in the now proven area northeast of Holbrook.

The strata are declared almost identical, though here the oil sands much deeper lying. Legal troubles are reported, cleared away by the receiver of the Holbrook Petroleum Syndicate, with promise that drilling at the well near this city will be resumed in the near future.

WELL HOLE TO BE TUBED AND RODDED

After several days spent in swabbing drillers working on California Signal No. 1 at Long Beach were ordered Saturday to tube and rod the hole in the hope that the well will produce steadily when placed on the pump. For several days the hole has shot oil to the crown block during swabbing operations, but has not produced a steady flow since its completion several days ago.

PRODUCTION IS INCREASED

New Wells at Santa Fe Springs Boost Flow by 33,000 Barrels During Week

SANTA FE SPRINGS, Sept. 2.—Production in the Santa Fe Springs field was increased 33,000 barrels during the week just ending by the addition of eight new producing wells, all of which were drilled to the Meyers sand in proven territory. No new territory was opened up for development as a result of the showings made in these new wells.

Development has been halted temporarily while wells now drilling, in what are termed the extensions, are being completed. With dry holes drilled in the south and east areas, and with Union Oil Company well in the far northern portion of the field pumping nearly 80 per cent water, only the southeast and west areas are left to be determined.

Wells drilling in the western extension are down near the 4000-foot mark and as yet test results are not in. The Santa Fe Company well in the far northern portion of the field pumping nearly 80 per cent water, only the southeast and west areas are left to be determined.

The M and H well, which is the deepest of any drilling along Telegraph Road, west of the river bridge, has developed showings, of officials state, which are taken as indicating that the field is deeper than previously thought. Mechanical troubles have halted other wells in that locality.

The Top-Notch Company has drilled farther west, near Bandini Station, is down near 4500 feet without commercial showings, the drillers state.

NEW FORMATION
Off to the southeast, the Lueta Oil Company level is down 1880 feet with cable tools in the hole and is coring every few feet. If production is found there it will be in a formation different from that in other portions of the Santa Fe Springs field.

The Top-Notch Company has drilled farther west, near Bandini Station, is down near 4500 feet without commercial showings, the drillers state.

Expansion toward Artesia is held up pending the outcome of the top-Notch Company's drilling. The Top-Notch Company has drilled nearly 4500 feet and has passed through blue clay formation, which oil men say is indicative of producing sands at a greater depth.

The Standard Oil Company has reached 6390 feet in its deep test directly east of the producing area on the Brownrigg-Keller lease and is passing through shale and sea shell with no showings of oil since the 4700-foot level.

If an extension of the proven area is to be found it will doubtless be found in the vicinity of the wells now being drilled as tests, in the southeastern and western districts from the field, operators predict.

The largest well of the week was placed on production by Oscar Howard on the 24th inst. and was drilled 4934 feet deep. This well, which is a sister to one placed on production several weeks ago on the same lease, made 6600 barrels of oil. The oil was 32.5 degrees gravity. Mr. Howard is the owner.

Yellow Dog Mine Keck Syndicate to Make Test of High-Grade Ore

Land in Mexico

By a "Times" Staff Correspondent
LONG BEACH, Sept. 2.—The L. Keck Oil Syndicate, of Long Beach, a company headed by Long Beach men and backed by Long Beach capital, will be the first of American Petroleum interests to actively exploit Mexican oil.

The syndicate, which has been organized to exploit the oil fields of the recognition treaty between the United States and the southern republics, is headed by J. L. Keck, head of several syndicates operating in Signal Hill and the Los Angeles area. The syndicate is the highest bidder for land in Lower California have been completed. The lease, it is said, constitutes one of the largest grants of oil land in the United States, close to the east coast of the gulf and extends from a point south of Alta Mira to the northern tip of the island of Miramar, running westward forty-one miles.

The new syndicate is a close corporation. Associated with Mr. Keck in the venture are L. J. Gillette, trustee of the local Keck syndicates, and vice-president, and Paul E. Coombs, prominent local business man, as secretary and treasurer.

HOTEL LEASE IS SOLD
San Jose Man Buys Schuyler at Long Beach

By a "Times" Staff Correspondent
LONG BEACH, Sept. 2.—The Schuyler Hotel, one of the largest and best known in Long Beach, passed into new hands yesterday, so far as furnishings and lease are concerned, when J. B. Zeller, owner of Hotel Montgomery, and San Jose, took possession of the hotel here for a consideration of \$150,000. The lease was purchased from Charles Harris, who has been owner and manager for some time.

The lease covers seven years and was handled through E. W. Cason & Co. of Los Angeles. Mr. Zeller, formerly of the hotel, is now in the management of the hotel and will have as his assistant J. N. Managosa, formerly of the Manx Hotel in San Francisco. The three were rushed to the Police Emergency Hospital for treatment. They were afterward removed to their homes.

THREE INJURED WHEN AUTO RUNS INTO TREE

PASADENA, Sept. 2.—Three persons were injured shortly after noon today when an automobile in which they were riding crashed into a tree at the corner of Sunset and Broadway streets.

Etta Tomlin, 20 years of age, of 1023 Kirkwood avenue, who was driving, suffered a fractured neck. Richard Tomlin, 25, suffered abrasions of the face and neck caused by flying glass, while Mrs. Oregon Tomlin, 25, received a deep cut in the chin. The three were rushed to the Police Emergency Hospital for treatment. They were afterward removed to their homes.

POMONA CANNERY TO OPEN

POMONA, Sept. 2.—The Golden State Cannery will open next Wednesday on a long tomato run, and around Pomona are located 450 acres of tomatoes so it is expected that this will last far into the fall. By the time the canning is through with the new run pumpkins will then be packed.

SALE OF WHEAT NEARLY NORMAL

Almost 101,500,000 Bushels Sold in July, August

Winter Variety Expected to Drop From Now On

Market Puzzled Over Threat to Hold Product Back

BY CHARLES D. MICHAELS
(EXCLUSIVE DISPATCH)

CHICAGO, Sept. 2.—Wheat marketing at primary points during July and August aggregated 101,500,000 bushels, against 103,427,000 bushels last year. If reports are correct the greater part of the American Farm Bureau Federation are correct that farming operations are being carried on in a normal manner, it may result in much smaller marketing of winter wheat from now on.

It is now the season for spring wheat to move, in the American and Canadian wheat fields, where production has reached its peak, as high as 1000 barrels per well, the majority are only a short distance from the Midway Northern well, in the southeast part of the field in a few weeks ago, more than fifty rigs have sprung up.

Ten were added last week and with a score of these wells calling for offsets there is apparently no hope for cessation in drilling activities. New leases are being closed daily, most of them calling for drilling within two to six months.

While a few of the new wells are in the older section of the field, where production has reached its peak, as high as 1000 barrels per well, the majority are only a short distance from the Midway Northern well, in the southeast part of the field in a few weeks ago, more than fifty rigs have sprung up.

Ten were added last week and with a score of these wells calling for offsets there is apparently no hope for cessation in drilling activities. New leases are being closed daily, most of them calling for drilling within two to six months.

Ten were added last week and with a score of these wells calling for offsets there is apparently no hope for cessation in drilling activities. New leases are being closed daily, most of them calling for drilling within two to six months.

MANY RIGS IN FIELD

The total number of rigs in the entire field today, counting those under construction, is 120. The number of producers is in the neighborhood of thirty-five. The Chancor-Candfield Oil Company with thirty-four wells, including those on production, those drilling and those for which rigs are being built, heads the list of the operators.

As follows: Standard, ten; Petroleum Midway, six; Superior, six; Pan-American, five; U. S. Royalties, four; Hub, four; Getty, four; General Petroleum, four; Shell, four; Union, three; Fullerton, three; Sentinel, three; Midway, two; Northern, two; Gilmore, two; Amalgamated, two; Selby-Root, two; Wilkes & Tuttle, two; Universal Consolidated, two; and the following one each: White Star, Southern Midway, Federal, Empire, Belridge, Bush & Voorhes, Fortuna, Patterson-Barker, C. C. Julian, Trimble-Ebba, Keynote, Harbor City, Graham, Globe.

Every week sees new operators coming into the field, most of them from Santa Fe Springs, Signal Hill and Huntington Beach. Wilkes & Tuttle are the latest to commence operations. They have rigs going for two wells and have purchased two drilling sites six blocks east of the Midway Northern on the old Redondo-Long Beach Boulevard, paying \$12,000 for them.

WELLS HUB TO HUB

The drilling of the last three weeks has shown that the conservative drilling which marked the early development of the Torrance field is being thrown to the winds. In the southeast section, wells in many cases are being placed "hub to hub" and with a number of large lots and half-acre tracts lying in what is believed to be the heart of the field, this practice is expected to continue.

It is regarded as fortunate for the life of the field that the big companies were the first to start development. As a result they acquired large acreage which can be protected against intensive drilling.

Companies starting new wells last week were the Superior, three; Chancor-Candfield, Midway and Sentinel, Belridge, Selby-Root, Getty and Universal Consolidated, one each.

All but two of these wells are within a few blocks of the Midway Northern well and those were on Carson street. In this latter district six wells are near production.

RIVERSIDE LEGION DELEGATES BACK

(EXCLUSIVE DISPATCH)
RIVERSIDE, Sept. 2.—Sheriff Sam Ryan, representing Banning and James J. Richardson, one of Riverside's delegates to the State Association Legion convention which closed at Eureka Thursday, are back in Riverside. They returned today and Richard J. Welch, Jr., and Lyle Stalder are expected today or Monday. When the National Legion convention opens at San Francisco October 15, Welch, Jr., and Stalder are expected to represent the Riverside Council of the American Legion. The local run was chosen at the State convention, at which William Terry of Hemet also was present.

TORRANCE FIELD SPEEDS UP

Chancor-Candfield Will Intensify Operations, While Other Companies Keep Up Pace

(EXCLUSIVE DISPATCH)
TORRANCE, Sept. 2.—With the announcement by the Chancor-Candfield Oil Company—the biggest operator in the local field—that it is going to speed up its drilling, while the smaller companies continue the hot drilling pace started thirty days ago, it is apparent that the next few months will see the daily production here jump from less than 10,000 barrels to perhaps several times that output.

After a comparatively slow start the Torrance field appears to be duplicating the sensational development of some of the other fields in Southern California. Since the Midway Northern well, in the southeast part of the field in a few weeks ago, more than fifty rigs have sprung up.

Ten were added last week and with a score of these wells calling for offsets there is apparently no hope for cessation in drilling activities. New leases are being closed daily, most of them calling for drilling within two to six months.

TORRANCE FIELD SPEEDS UP

OIL EXPORT AT HARBOR DECREASES

CLASSICS HAVE
NIGHT IN RADIOArroyo Trio Gives Recital at
"Times" KHJ StationPianist and Vocalist Also on
Sunday's ConcertLecturer Talks on Marriage
and Divorce Problems

BY BEN A. MARKSON

On quiet Sunday nights when the city is hushed, the faintest strains of music, a feeling of peace, a sense of the vastness of the universe, are brought to the listener's ears by the magic of the radio.

Sunday night impresses as a dignified, serene frame for the classical. There is nothing to distract from the glowing beauty of the musical paintings. The tasteful simplicity of the studio, amber walls like moonlight against the sky, the soft lighting, the comfortable seating, the art of the artist.

We are seated. A few visitors under a canopy on the roof, where the piano is a dusky green and shadow themselves against the white walls, lean forward to the side of the open windows. A small green light glows suddenly on the signal box. A hummer buzzes. Uncle John turns a switch and a large ruby eye flashes from the ebony box. We are "on the air." Uncle John makes his customary announcement and the concert is under way.

The musical features were provided by a chamber trio, a pianist, and a tenor.

The Arroyo Trio, composed of Esther Tobler, violinist; Mary Tynan, cellist; and Raymond McPeck, pianist, opened an excellent recital with Mendelssohn's Trio in D minor, (a) molto allegro ed agitato (b) andante con moto. Another trio number, this in E flat, by the brilliant and methodical Schubert, found equal favor. Schubert's exquisite "Moment Musical" was heard, then the rhythmic, melodic strains of Brahms' Hungarian Dance, No. 5, with its spirited folk dance theme. "Cavatina," by Raff, a gem in its class, and "Lobengrin," by Kreisler, were added to the chamber music broadcast.

The Arroyo Trio, a skilled ensemble, is well known to KHJ listeners. Grace Sessler Brearley, pianist of attainments in concert work, offered her accomplished solo gifts.

This is a delight in Debussy's "Fountain," shimmering colors of "Water Sprites," and commanding interest in an Etude of the latter by vital modern harmonic effects. A gliding, moon-inspired Barcarolle in G minor by Schubert, with its delicate concept of happy youth in a floating barge, a challenging Chopin ballade, emotional and romantic; a Max Reger Capriccio, a military march—these followed at intervals with the virtuosity, the technique and the interpretation of the Leontinsky school.

The vocalist of the program was Allan Ray Carpenter of Chicago, a pupil of Claude Debussy in France.

FIRST FLOOR

Table and Boudoir Lamps, Many Kinds On Sale

LAMPS for the central or secondary light in the living-room or for the boudoir.

The Larger Table Lamp, 25 inches in height, and with two lights, are of beautifully burnished finish, black combined with gold, or gold with polychrome. Attractive silk shades, in rose, mulberry, gold and blue, and octagonal in shape, accompany the lamp, and the whole is complete for \$24.75.

Single Light Lamps, shorter and with smaller shades, are proportioned for end table or desk use, or corners of the larger room. With silk shades in all colors, that are trimmed with gold braid and flowers. This lamp complete is priced at \$11.75.

Boudoir Lamps, in burnished polychrome and combined finish, may be had with silk shades in almost any choice of color, at \$8.00.

Trefousse Kid Gloves Only \$1.95

THOSE who know the Trefousse name need not be told how exceptional is this Tuesday pricing. 1200 Pairs of them—all of selected French kid skins, plush worn, exquisitely fashioned and finished.

In 3-4 inch stock, with Paris Point backs; or in 1-2 inch style, with fancy embroidered backs.

Combinations of black with white, white with black, beige and brown, brown with champagne, mode with black or brown, and plain white, champagne, mode, brown, gray and black.

At only \$1.95 a pair.

FIRST FLOOR

Net Guimpes at \$5.00

ALL these Guimpes—300 of them—display the never turns that neckwear is taking, right this season.

Charmingly dainty with the trimming, or nearly the entire guimpe of real lace. Irish Lace—Fillet lace. Filled models, Peter Pan models, Tuxedo models.

And every other one of them is different in some novel and interesting way. With wide Irish lace collar and vestee, or with the net frills edged with fillet or Irish lace.

Each at \$5.00.

FIRST FLOOR

Silk Petticoats at \$3.95

OME are of an exceptionally heavy weight of Jersey Silk, that will wear long without losing the petticoat's desired straight lines. These have pleated flounces in some cases, or, often, are straight from waist to hem. And there is trimming of Paisley insets, of applied ribbon, or of embroidery. Those of Radigue silk are embroidered in scallops at the bottom, with additional touches as well, diamond designs in contrasting colors.

The full assortment of shades includes, black, navy, gold, henna, American Beauty, rose, gray, green, taupe, brown, purple, royal, tan, French gray, Copen, peacock and mountain haze.

All are priced incredibly low for the Anniversary Sale. At \$3.95.

FOURTH FLOOR

Handkerchiefs Embroidered No Charge

600 Dozen Handkerchiefs, all of pure linen and at an exceptionally low price per dozen during the Anniversary Sale, will be embroidered without charge with name or initials, for one who orders one or more dozen.

The Anniversary Sale pricing for Women's Handkerchiefs is \$2.50 a dozen. For men's, \$3.50 a dozen.

FIRST FLOOR

Novelty Ornaments

AMONG the many decorative concoctions that grace woman's attire, foremost are these novelty ornaments of which Robinson's has so large and beautiful a collection.

They combine colored beads with jet in numberless new designs and intriguing fashions. Producing delightfully novel finishings for the tailleur costume.

Choice may be had from this group of 300, at \$1.25 each.

FIRST FLOOR

Single Skin Stone Martens \$37.50

A SPECIAL purchase of a single skin Stone Martens, enables Robinson's to offer them at this exceptional pricing—just in time for the Anniversary Sale.

Exceptionally large, dark, skins selected with a care and discrimination which took into consideration every tiny detail.

Soft, silky depth of brush, and rich coloring make them more than usually beautiful.

At the Anniversary Sale pricing of \$37.50.

THIRD FLOOR

Store Opens 9 A.M.
Closes 5 P.M.

Chantilly Laces

THESE are novelty Chantilly Laces that are especially charming when used for dinner or dance frocks. The designs are unusual and are wrought in to endless yards of these exquisitely beautiful and desirable laces.

They may be had in black, in white, cream, blonde and brown. Priced at \$2.95 a yard. 36 inches wide.

FIRST FLOOR

Breakfast Coats and Negligees \$26.75

FILMY as gossamer and delicately yet securely fashioned, these Negligees and Breakfast Coats are simply irresistible!

Georgette—doubled—gives that two-tone effect with its combined shades, deeply overlaid by lighter tone. Sometimes they are of crepe-back satin. They are as iridescent as soap bubbles and covered with strips of harmonizing ribbon, French flowers, and tiers and tiers of lace, white or ecru.

This lavish use of lace on them is one of their visible proofs of newness; proof also of their eternally feminine charm.

The selection of colors includes these combinations: Rose and blue, orchid and maize, orange and maize, peach and peacock, orchid and Nile, blue and orchid, flesh and blue, orchid and flesh, rose and Nile, Nile and orchid, blue and peach, orchid and peach, and all black.

There are just one hundred of them. Each at \$26.75.

THIRD FLOOR

All Silk Chiffon At \$1.35 yd.

CREPE CHIFFON—all silk, of an exceptionally delicate, lovely yet durable quality, will have a Tuesday pricing out of all proportion to its worth.

In 40-inch width, and in practically all the street and evening shades, as well as black or white. Priced for the first day of the Anniversary Sale, at only \$1.35 yard.

FIRST FLOOR—TRIMMING SECTION

THIS STORE KEEPS OPEN ALL DAY

J. W. Robinson

Begins
Tuesday

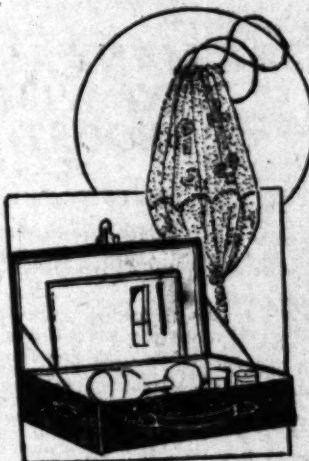

EIGHT years ago, J. W. Robinson Co. led the way into Seventh Street, founding a new business district.

Robinson's Seventh Street Anniversary is, therefore, more than a store event. It marks the anniversary of Seventh Street, and in a larger way of metropolitan Los Angeles.

For other fine stores soon followed, erecting imposing buildings and adding improved facilities until today Los Angeles retail stores are regarded as among the most beautiful in America and Seventh Street is known as one of the fine retail streets of the world.

J. W. Robinson Co. therefore celebrate this Eighth Anniversary with a full appreciation of the responsibilities of sponsorship.

The prestige of J. W. Robinson Co. and of Seventh Street will be enhanced through this event which marks the Eighth year of the ever expanding growth of this store, of Seventh Street, and of Los Angeles, and which shall be known and remembered as Robinson's Seventh Street Anniversary Sale.

They may be had in a choice of checks, stripes, or plaids, and many are trimmed in stitching and buttons of self color. Sizes from 26 to 32, waist measure. Priced at \$10.75.

THIRD FLOOR

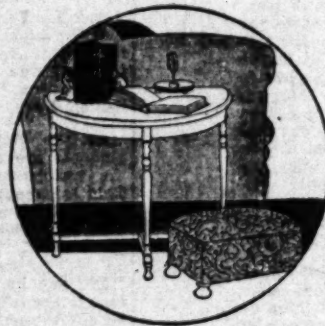

Wool Batts at \$2.75

GREAT, warm, soft Batts of Wool, of the size for filling comforts. Fleecy and of so high a quality of material that a remarkably long term of service may be exacted.

Each Wool Batt is two pounds in weight, and 72x84 inches in size. Priced only for the Anniversary Sale at \$2.75.

Sheets and Pillow Cases

Cotton sheets and Pillow Cases, of fine texture and enduring quality, beautifully hemmed and finished, may be obtained in the following sizes: Sheets, 72x108 inches, at \$1.65; 81x90 inches, at \$1.50; 81x96 inches, at \$1.65 each. Pillow cases to match the sheets, 45x58½ inches, at 45c.

Magazine Racks and End Tables \$13.75

Solid Mahogany Magazine Racks, convenient in size and fine in design, are also priced for Tuesday, at \$13.75.

Italian End Tables, of solid mahogany—a delightfully designed, strongly made and finely finished Table which will serve countless purposes.

As sketched, it may be had for only \$13.75.

SECOND FLOOR

SIXTH FLOOR

Telephone
Broadway 4701

New Fall Suits for Students \$27.50

ALL—school opening again—and a new suit. One that will start in at the beginning of the term with the pep and the style that a regular fellow wants. And—when the end of the term has rolled around—will have that unworn look that only the really well made suit can claim.

New patterns, new styles and new fabrics. All wool suits they are, some tweeds, some whipcords, cassimeres, worsteds and chevrons. Many of the materials are imported. Sizes 32-36.

And all to be unusually low priced for the Anniversary Sale at Robinson's. At \$27.50.

Extra Pair of Trousers may be had with some of the suits at \$4.50 a pair.

FIRST FLOOR—MEN'S SECTION

Personal Engraved Stationery \$3.50

FOR all who are interested in stationery that reflects the most conservative distinction of taste, the offer that Robinson's is making will be unusually attractive.

And only during the Anniversary Sale will it be possible to: have a monogram die engraved in gold, silver, or colors, and have it on 50 Sheets of Correspondence paper. With 50 Envelopes to match, making a total price the whole for only \$3.50.

If a two or three-line name and address is preferred to the monogram, it will be engraved at the additional cost of \$1.00.

A choice of white or gray paper, either folded or flat may be made. For Christmas Gifts, timely action in ordering the paper engraved now to be delivered in October, would be a saving of the before-Christmas rush.

FIRST FLOOR

Costume Slips

CREPE de chine Costume Slips, trimmed with real flet lace and delicate ribbons, will include flesh, orchid and white made shadow proof by wide hems to the hips, and priced at only \$2.95.

FOURTH FLOOR

INCLUDED in the group are these authors: Archibald Marshall, Gertrude Atherton, Sewell Ford, Will Livingston Comfort, Berta Ruck, Eleanor Hallowell Abbott, E. Phillips Oppenheim, Coningsby Dawson, Leonard Merrick and many others.

All recent Novels—2000 of them—each in its original edition, to be only 50c each on Tuesday.

FIRST FLOOR

Hand Made Blouses \$4.95

PRICED far lower than they would, or could be ordinarily, because they were a very special purchase for the Anniversary Sale. Every one of them made by hand in far away Porto Rico. Every one of them exquisitely fresh and dainty. In 19 new styles, all different. Some with square or V necks, others with youthful Peter Pan collars. All with long sleeves.

Fashioned of sheer French voile, trimmed with wide bands of real Irish and flat lace, with hand drawnwork and hand embroidery.

In sizes from 34 to 46—priced at only \$4.95 on Tuesday—the first day.

THIRD FLOOR

Children's Shoes Very Sharply Reduced

700 Pairs of Children's High and Low Shoes in a great Anniversary Sale—at prices extraordinary—in all styles and sizes. For Tuesday, the first day of the sale. Desirable in every respect of style and material for they were regularly priced far higher. And inclusive of the following sizes: Growing Girls' Shoes, in sizes from 5½ to 6, at \$4.95; Boys' Shoes, in sizes from 1½ to 2, at \$4.95; Misses' Shoes, in sizes from 1½ to 2, at \$4.95; Children's Shoes, in sizes from 5½ to 6, at \$4.95; Children's Shoes, in sizes from 5 to 6, at \$4.95; Infants' Shoes, in sizes from 1 to 2, at \$4.95.

FOURTH FLOOR

Glove Silk Vests and Bloomers \$1.95 and \$2.95

THE superior quality of silk that makes this underwear accounts for its appeal to women of decided taste. Vests that are cut full for better fitting are tailored in finish or hemstitched at the top band and straps. There is reinforcement under the arms to render them more lasting.

A fine assortment of colors, including white, pink, orchid, peach, apricot and black. Priced unusually low at \$1.95 each. Bloomers that match the vests in quality and color. Of full cut and well reinforced. Finished at the knee with frill. Priced specially at \$2.95 a pair.

FOURTH FLOOR

Coats Fur-trimmed \$87.50

proof that Robinson's Anniversary Sale is one of the great events of the year, is the offering of these beautiful Coats. Under ordinary circumstances such Coats at such a price? Of them new and fresh—to be had for the first time on Tuesday. embodying the very fabrics and will lead the Winter mode. Richly-fur-trimmed fabrics, such as mink, seal, and ermine. Slender, straight and d, amply sleeved, lined with ermine, fox, wolf and beaver. Completed by large collars of ermine, fox, wolf and beaver. And finally, priced in such a way that any means will find them within

Fur-trimmed Coats, at \$87.50

New Street, Afternoon and Evening \$47.50

groups—all new—hardly one of the Anniversary Sale's most offerings. visualize the usual \$47.50. For these were given a pricing far their true value. A pricing which is Robinson's great Anniversary Sale.

For Street For Afternoon

ocks of Charmeen, the new heavy beautiful silks or soft crepes, such fabric, of Poiret will and canton, jacquard, satin-faced and crepe roma. All with the same fundamental grace of line—individualized by pleated circular flounces, tiered skirts, huge bows and by countless other means. brown, navy and black. and by countless other means. At \$47.50.

For Evening

These are only in their styles are the very embodiment of youth. Slender, fluffy crepe and georgette, exquisitely simple. Adorned with silver ribbon or metal cloth. In orchid, mink, and rose tints. Sizes from 14 to 20. At \$47.50.
